1 At the time that was a legitimate sensitive issue.
2 We did not seek the permission or an agreement or an order to
3 file it because it was considered confidential. At this
4 point in time we are prepared to sit down, as my colleague
5 with the end payors, Mr. Seltzer, indicated, and try to
6 remove as many of those designations as is possible. I think
7 a lot of them are stale; they go back five years.

8 THE COURT: Yes.

9 MR. KANNER: So that's just -- I'm not going to go
10 into it further. I'm happy to answer any questions but --

11 THE COURT: I agree. When I looked at it and I
12 read it, I thought this was very different from what we were
13 doing, but I think it is something we have to take note of
14 and take care of from this point forward just because we
15 don't want to have any stumbling blocks with something as
16 simple as sealing.

17 MR. KANNER: It is the only prudent approach to
18 take. And the last thing I would say is in our actions, as
19 Mr. Hansel pointed out, we haven't had any objectors, it is a
20 different type of a class, their way of objecting is to opt
21 out, and there is -- the record with respect to final
22 approval and preliminary approval has been detailed, unlike
23 what we see was the case in Shane.

24 Those are my comments, and I'm happy to answer any
25 questions, but I think we are on the same page.
